

Humanitarian volunteer work during COVID-19 pandemic

COVID-19

**With the appearance of this dangerous virus, our struggle begins.
That is why the city organized a volunteer center.**

Volunteers

- About 200 volunteers are involved in helping people who are isolated or over 65 years of age.
- We visited about 7000 address during our work.

We bought groceries and medicines, pay bills and raise money from banks. We also gave people alcohol for disinfection and walk their pets

The book

During the visit of Mr. Simeon Babić he told us his idea to write a book about our work.

The book would contain our experiences and the experiences of the people we visited during our work

Also, the mayor of Vršac will tell her experiences as well and everything that the city administration has taken over in the fight against the virus

Editorial team

The main goal of the book

- ▶ Formation of a volunteer humanitarian center as a permanent institution;
- ▶ Vršac to become the first humane and social local community;
- ▶ Preservation of tradition in cooperation between the elderly and the young.

Because

“IT’S NICE TO LIVE FOR OTHERS”
