

**Offer for volunteer work as a technical moderator at the international conference "Sharing beyond borders" on 10-11<sup>th</sup> of July 2020**

You are fit in handling computers and already have experience with the video software "Zoom"?

You are a team player and willing to learn new things, you speak good English and you enjoy being an active helper in an international project?

You have time on 10 and 11 July 2020 and would like to invest it wisely?

The "Institute for Virtual and Real Learning in Adult Education at the University of Ulm (ILEU) e.V.", the association "Danube-Networkers for Europe e.V." and several international partners from all Danube countries are jointly planning an online conference "Sharing beyond borders" and an international, virtual European partner meeting on the 10<sup>th</sup> and 11<sup>th</sup> of July, which will be both organized using the "Zoom" software. In addition to lectures, various interactive workshops invite the participants to join various discussions. The conference topics cover new ways of cooperation, communication and care for elderly people along the Danube as well as in Europe in times of COVID-19.

**For this partner meeting, the team is looking for motivated people who can imagine to take over parts of the technical moderation**, especially for the individual workshops on 10.07. starting from 2pm. As compensation we offer a small expense allowance of 10€/hour, based on the volunteer flat rate (tax free).

If this task would be something for you, then please contact us at [info@ileu.net](mailto:info@ileu.net) with a short info about you and a description of your knowledge and skills in the above mentioned areas.
